

The Library

We are fortunate to have a very well stocked, fully catalogued library. Books are available for borrowing by all members, using a card system. When borrowing books, members are required to fill out a card that is then placed in a borrowing box. We have over 160 excellent books on a wide range of topics including woodturning, wood carving, tree and wood types, scroll sawing, toy making, pyrography, intarsia and of course, general woodworking. We also have an interesting selection of vintage woodworking books. Many well known authors are represented in our library including Neil Scobie, Mike Darlow, Ray Hopper, David Regester, Richard Raffan and Sue Walters, to name just a few.

We also have a small collection of DVDs for borrowing, including footage of Guilio Marcolongo, Neil Scobie and topics from Fine Woodworking.

Our library is situated inside the white cupboard, in the clubhouse. Members, please take the time to have a look at our books; you are sure to find something to interest you.
